# Task 1

The screenshot displays the Microsoft Teams application interface. On the left sidebar, the 'Teams' section is active, showing a channel named '2023 April L5 - ADV & ...'. The channel's 'General' tab is selected, displaying a post from 'Ram Manthry' dated Monday 11:49, titled 'Scheduled a meeting'. The post includes a meeting card for 'Sassy Styling cntd. & Intro to "The Cloud"' scheduled for 24 April 2023 at 17:30. The card shows 89 replies and a video thumbnail with a duration of 2h 35m. A 'New conversation' button is visible at the bottom of the post. On the right, a user profile card for 'Vidyasagar Katam' is shown, indicating he is 'Available' and providing options to 'Manage account' or 'Teams for personal use'. The bottom of the screen shows the Windows taskbar with the date 27-04-2023 and time 11:59.

Did you create these? They're excellent!

I'd love to give you feedback on photo 3:

I can see that the listing boxes are centred and (visually) spaced apart evenly. It's very helpful that when you hover over (I assume) each listing, it displays further information such as price and no. of rooms. If I were a user, I would prefer if the location appeared above the picture without needing to hover as it would save me time/give me important information straight away. Would like there to be a drop down menu, back button or search so I have an emergency exit (this may just be cut off the screenshot). Well done!
